

**Affordable Hi-Lo
Treatment Tables
built on quality for
any environment.**

RELIABILITY, DURABILITY, ENGINEERED TO LEAD.

Product Highlights

From Olympic stadiums to hospitals and clinics across the globe, MedSurface tables are relied upon by sports MDs and physical therapists to treat their patients effectively. Our tables are engineered for superior performance with:

- Silent gas-assisted linear-actuator generating over 7,000 Newtons of force, easily lifting up to **500 lbs.**
- **Retractable 360° casters** for unmatched stability and effortless mobility.
- The industry's only **E-COATED** tables prior to powder coating, ensuring durability and protection.
- Convenient **foot controls on all four sides** for quick, precise height adjustments from any position.
- **Non-slip, contoured, finely stitched cushions** for enhanced patient and practitioner comfort.

All models are powered by **110V** for consistent and reliable operation.

Shipping: Tables & parts are in stock and ship the next business day.

Warranty: All tables come with a comprehensive 3-year warranty, reflecting our commitment to quality manufacturing and design.

Certifications: All MedSurface tables are NEMCO certified, FDA approved, and manufactured in an ISO-9001 facility.

3-Section Hi-Lo Table

The 3-Section Hi-Lo Table is ideal for clinics and hospitals requiring flexible head positioning for a range of treatments. Key features include:

- **Head section adjusts 35° upward and 90° downward**, making it suitable for a variety of patient positions.
- **Gas-assisted struts** provide easy control of the headrest with included insert cushion, ensuring patient comfort.
- Perfect for environments where accessibility and patient positioning are essential for efficient care.

5-Section Hi-Lo Table

The 5-Section Hi-Lo Table offers enhanced versatility, making it the preferred choice for clinics performing cervical spine treatments and advanced patient support. Key features include:

- **Head section adjusts 36° upward and 19° downward** for maximum flexibility in cervical spine treatments.
- **Pneumatic strapless arm supports** adjust both up and down, swinging out to accommodate patient comfort during specific procedures.
- Designed to provide unmatched flexibility in busy clinical environments.

3 Section Hydraulic Hi-Lo Treatment Table

This Hydraulic Hi-Lo Treatment Table is designed for clinics needing reliable manual height adjustment without the need for electricity. Key features include:

- **Manually adjusts height from 18" to 35"**, providing easy access for both patients and practitioners without reliance on electricity.
- **MedSurface anti-microbial finish** ensures a sanitary surface, ideal for high-traffic environments.

Traction Table with Stool

Designed specifically for lumbar traction and other therapeutic techniques, the Traction Table with Stool is ideal for rehabilitation and sports therapy centers.

Key features include:

- **Turret-mounted traction pedestal** for low-friction lumbar traction, ensuring smooth operation during patient treatment.
- **Four cushioned sections** that adapt to patient needs, making this table highly versatile for physical therapy.

Bo-Bath Section Table

The Bo-Bath Section Table is an extra-wide treatment platform that supports a range of body types and therapeutic techniques. Key features include:

- **Extra-wide 40" base and cushion**, providing enhanced stability and comfort for both patients and practitioners.
- Designed for clinics needing ample space for therapeutic techniques, especially where patient stability is critical.
